EDUCATION

Galgotias University, Greater Noida, U.P. Bachelor of Technology (CSE)	2022–2026 CGPA: 9.12
Modern School, Noida, U.P. 12th (PCM, CBSE) 10th (CBSE)	95.4% 96.4%

WORK EXPERIENCE

MAQ Software Associate Software Engineer	Noida, India Nov 2025 – July 2026
- Developed enterprise solutions for MaSH, AIOps, and CELA using Power Apps, Power Automate, Dataverse, and Canvas Apps. - Built and tested applications using Azure, Power BI, SharePoint, SQL Server, HTML, CSS, and JavaScript. - Designed, implemented, and tested software applications across modern Microsoft technology platforms. - Analyzed customer requirements and delivered solutions through development, testing, and deployment.	
GirlsScript Code of Summer Extd. Open-Source Contributor	Remote Oct 2024 – Nov 2024
- Ranked in the Top 6% among 4000 contributors with 1095 points & delivered 8+ feature enhancements - Developed front-end components (HTML, CSS, JS) and contributed 9 PRs.	

PROJECTS

CivicVoice AI – AI-Powered Municipal Complaint Management System Tech Stack: HTML5, CSS3, Bootstrap, JavaScript (ES6+), Python (Flask), Whisper API, Geopy, RapidFuzz	Repo Link
- Built an end-to-end AI-powered web application enabling users to submit municipal complaints via voice, converting speech to structured text using Whisper-based speech recognition. - Designed an intelligent complaint triage system leveraging rule-based NLP, fuzzy matching (RapidFuzz), and geolocation validation to automatically categorize issues and assign priority scores. - Developed a dynamic dashboard with real-time recording and implemented a multi-factor scoring engine combining severity, infrastructure proximity, and trust metrics to generate a final triage score for efficient complaint prioritization. - Integrated RESTful Flask APIs for audio processing and AI inference, ensuring smooth frontend-backend communication in a modular architecture.	
Music Recommendation System Tech Stack: Python, TensorFlow, Keras, Scikit-learn, Pandas, Matplotlib	Deployed Link
- Developed a lyrics-based recommender using TF-IDF and cosine similarity on song lyrics. - Preprocessed a large dataset with Pandas, handling missing and noisy data. - Visualized top 10 track recommendations with Matplotlib for enhanced user experience and data clarity.	

SKILLS

Programming & Web: Java, JavaScript (ES6+), Python, HTML5, CSS3, Bootstrap, React.js, REST APIs
Frameworks & Tools: Spring Boot, Spring Security, Flask, VS Code
AI / ML: NLP (Rule-based), Speech-to-Text (Whisper), Fuzzy Matching (RapidFuzz), Data Processing (Pandas)
Database & Version Control: MySQL, H2 Database, Git, GitHub
Soft Skills: Adaptability, Communication, Collaboration, Critical Thinking, Multilingual (English, Hindi, Bengali)

EXTRA-CURRICULARS & CERTIFICATIONS

Open Source: GSSoC 2024 (Top 251/4000), Hacktoberfest 2024 (9 contributions)
Programming Platforms: [GFG](#) (Univ Rank 700), [HackerRank](#) (4-star Java), [LeetCode](#) (155+ solved)
Certifications: Postman API (2024), Oracle Java & DB (2024), IBM Web Dev (2023)
